SUNNY SYNTHETIC LAB FIXTURE | LAB-MATH-A

Lantern Market Arrays

Equal groups, arrays, and multiplication facts

Grade 3 mathematics

Student: Synthetic Learner | Date: 2026-08-08 | Version: RETURNED

1 Draw 3 equal groups with 4 lanterns in each group. **OK**

3 groups of 4; total 12

2 A display has 4 rows of 5 lanterns. How many lanterns are there? **OK**

20

3 Write a multiplication equation for 2 + 2 + 2 + 2. **OK**

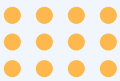

4 x 2 = 8

4 Circle the array that shows 3 x 4. **OK**

A

B

C

B

5 Five baskets hold 3 oranges each. How many oranges are there? **X**

8

6 Explain why 3 x 4 and 4 x 3 have the same total. **OK**

Both make 12; rows and columns switch.

Teacher score: 5 / 6

Strong arrays and facts. Recheck how the story tells which operation to use.
